P: Pass		
F: Fail		
R: Refer to retailer technologist.		
Test results were evaluated according to ASTM limit value.	E1353-08a(2016)California Technic	cal Bulletin 117(2013)(*)

**REMARK:** Original samples are kept for 3 months and all technical records are kept for 5 years unless otherwise specified. If requested, measurement uncertainty will be reported. But unless otherwise specified, measurement uncertainty is not considered while stating compliance with specification or limit values The reported uncertainty is based on a standard uncertainty multiplied by a coverage factor k=2, providing a level of confidence of approximately 95 %. The declaration of conformity was given in accordance with the Simple Acceptance Decision Rule. (without considering the level of confidence and measurement uncertainty, evaluation of suitability or non-conformity based on whether the test result obtained is only within the specified limits) Tests marked (\*) in this report are not included in the accreditation schedule

This report shall not be reproduced other than in full except with the permission of the laboratory. *Testing reports without signature and seal are not valid.*

Open flaming	NO	NO	NO
Glowing burning	NO	NO	NO
Percente weigt loss %	01:06	01:09	02:08

o: observed no: not observed

### Test criteria;

A single mock-up test specimen fails the requirements of this test procedure if any of the following criteria occurs:

- a) The mock-up specimen continues to smolder and the test must be terminated due to intensifying smoldering.
- b) The mock-up specimen transitions to open flaming;
- c) The resilient filling material substrate of the mock-up test specimen has more than 20% mass loss.
- 2. The resilient filling material passes the test if three mock-up specimens pass the test.
- 3. If more than one specimen fails, the resilient filling material fails the test.
- 4. If any one of the three initial specimens fails, repeat the test on additional three specimens. If all three additional specimens pass the test, the resilient filling material passes the test. If any one of the additional three specimens fails, the resilient filling material fails the test.

Test result: Pass
